These drawings and notes constitute what is referred to in the industry as a "Builder's Set." They have been produced with limited construction detail on the assumption that the Builder, as a trained professional, possesses the expertise required to complete the work in a workmanlike manner; including the design and construction of the mechanical, plumbing and electrical systems. If the builder is unclear or unfamiliar with the structural connections or any other process chosen to construct this building, consult with the appropriate registered Engineer immediately. General Contractor to check and verify all dimensions, window / door sizes, and other conditions at the job site prior to and during construction. Construction to conform to 2018 International Residential Code.

OCTOBER 13, 2026

RESIDENCE for
DAVID and SHONNA CARR
